## **INSTITUTE INNOVATION COUNCIL (IIC)** **(FC-33)**

Report on the Awareness Program: “Introduction to Innovation”

Date: Saturday, 22<sup>nd</sup> March 2025

Venue: Seminar Hall

Organized by: Institute Innovation Council (IIC)

Target Audience: First-Year Engineering Students (All Disciplines)

Benefitted students: 110

### **Introduction**

On Saturday, 22<sup>nd</sup> March 2025, the Institute Innovation Council (IIC) organized an impactful awareness program titled “Introduction to Innovation” for first-year engineering students. The program was designed to introduce students to the core concepts of innovation, intellectual property, internships, and entrepreneurship, with a focus on inspiring them to think creatively and take proactive steps early in their academic journey. The event featured a lineup of enthusiastic speakers who shared their insights, making it an engaging and informative experience for all attendees.

### **Program Overview**

The program was tailored specifically for first-year students, emphasizing foundational knowledge and actionable steps to kickstart their innovation journey. Mr. N. N. Morey, the program coordinator, anchored the event, ensuring a seamless flow of sessions and providing valuable context throughout.

### **Session Details**

Mr. N. N. Morey opened the program by welcoming the students and introducing the theme of the event, “Introduction to Innovation.” He highlighted the importance of innovation in engineering and encouraged students to embrace a problem-solving mindset from the very beginning of their academic journey. He also outlined the role of IIC in fostering a culture of innovation and entrepreneurship on campus.

Dr. A. B. More delivered an engaging session on the concept of innovation. He explained how innovation drives progress in various fields of engineering and shared examples of groundbreaking innovations that have transformed industries. He emphasized the importance of curiosity, creativity, and collaboration in fostering innovation and encouraged students to start thinking innovatively from their first year.

Dr. M. R. Dharne provided a comprehensive overview of patents and their significance in protecting intellectual property. He explained the process of filing a patent, the criteria for patentability, and the benefits of securing patents for innovative ideas. He also shared examples of successful patents filed by students and young innovators, inspiring the audience to consider protecting their own ideas.

Ms. A. S. Choudhary and Ms. P. R. Wankhade conducted an interactive session on the importance of internships. They discussed how internships provide practical exposure, enhance technical skills, and help students build professional networks. The speakers also shared tips on how to secure internships, even as first-year students, and make the most of the experience. They highlighted the value of micro-internships and virtual projects as entry points for gaining industry experience.

Mr. A. G. Bhatkar spoke about the concept of copyright and its significance in protecting creative works. He explained the difference between patents and copyrights, the process of obtaining copyright protection, and the benefits of securing copyrights for original works. He also shared examples of copyright applications in the field of engineering, such as software development and design projects.

Mr. N. N. Morey delivered an inspiring session on startups. He discussed the journey of entrepreneurship, from ideation to execution, and shared his own experiences in building a successful startup. He emphasized the importance of resilience, adaptability, and teamwork in overcoming the challenges of starting a new venture.

Mr. N. N. Morey concluded the program by summarizing the key points discussed by each speaker. He reiterated the importance of innovation, patents, copyrights, internships, and startups in shaping a successful career in engineering. He encouraged students to take

proactive steps toward achieving their goals and thanked the speakers for their valuable contributions.

## Key Takeaways

- Innovation is a mindset: Cultivate curiosity, creativity, and problem-solving skills from the start.
- Protect your ideas: Explore patents and copyrights to safeguard your intellectual property.
- Gain practical experience: Pursue internships and projects to build skills and networks.
- Embrace entrepreneurship: Start small, learn from failures, and leverage IIC's support systems.

## Feedback and Conclusion

The program received overwhelmingly positive feedback from the students, who found the sessions informative, engaging, and highly relevant to their academic and career aspirations. The speakers' practical insights and real-world examples left a lasting impression on the participants, motivating them to explore innovation and entrepreneurship early in their academic journey.

The event concluded with a vote of thanks to the speakers, organizers, and participants for making the program a resounding success. The "Introduction to Innovation" program not only educated students but also ignited a spark of curiosity and ambition, paving the way for future innovators and leaders in the field of engineering.

## **INSTITUTE INNOVATION COUNCIL (IIC)** **(FC-33)**

Report on the Awareness Program: “Introduction to Innovation”

Date: Wednesday, 12<sup>th</sup> February 2025

Venue: Seminar Hall

Organized by: Institute Innovation Council

Target Audience: Students of Civil, Computer, and Mechanical Engineering

### **Introduction**

On Wednesday, 12<sup>th</sup> February 2025, the Institute Innovation Council organized an awareness program titled “Introduction to Innovation” for students of Civil, Computer, and Mechanical Engineering. The program aimed to introduce students to the concepts of innovation, patents, copyrights, internships, and startups, providing them with a holistic understanding of how these elements contribute to personal and professional growth. The event featured speakers who shared their knowledge and experiences, making it an enlightening experience for all attendees.

### **Program Overview**

The program was structured into multiple sessions, each focusing on a specific topic related to innovation and career development. Mr. N. N. Morey, the program coordinator, played a key role in introducing the event and summarizing the key takeaways at the end.

Mr. N. N. Morey inaugurated the program by welcoming the students and introducing the theme of the event, “Introduction to Innovation.” He highlighted the importance of innovation in engineering disciplines and explained how the program would help students explore new opportunities and ideas.

Dr. A. B. More delivered an insightful session on the concept of innovation. He explained how innovation drives progress in various fields of engineering and shared examples of groundbreaking innovations in civil, computer, and mechanical engineering. He emphasized

the importance of creativity, critical thinking, and problem-solving skills in fostering innovation.

Dr. M. R. Dharme provided a detailed overview of patents and their role in protecting intellectual property. He explained the process of filing a patent, the criteria for patentability, and the benefits of securing patents for innovative ideas. He also shared case studies of successful patents in the engineering domain.

Ms. A. S. Choudhary and Ms. P. R. Wankhade conducted an interactive session on the importance of internships. They discussed how internships provide practical exposure, enhance technical skills, and help students build professional networks. The speakers also shared tips on how to secure internships and make the most of the experience.

Mr. A. G. Bhatkar spoke about the concept of copyright and its significance in protecting creative works. He explained the difference between patents and copyrights, the process of obtaining copyright protection, and the benefits of securing copyrights for original works. He also shared examples of copyright applications in the field of engineering.

Mr. N. N. Morey delivered an inspiring session on startups. He discussed the journey of entrepreneurship, from ideation to execution, and shared his own experiences in building a successful startup. He emphasized the importance of resilience, adaptability, and teamwork in overcoming the challenges of starting a new venture.

Finally Mr. N. N. Morey concluded the program by summarizing the key points discussed by each speaker. He reiterated the importance of innovation, patents, copyrights, internships, and startups in shaping a successful career in engineering. He encouraged students to take proactive steps toward achieving their goals and thanked the speakers for their valuable contributions.

## Key Takeaways

- Innovation is the driving force behind progress in engineering and requires creativity and problem-solving skills.
- Patents are essential for protecting intellectual property and fostering a culture of innovation.
- Internships provide practical experience and are a stepping stone to a successful career.
- Copyrights protect creative works and are crucial for safeguarding original ideas.

- Startups offer exciting opportunities for entrepreneurship but require dedication, resilience, and teamwork.

## Feedback and Conclusion

The program received overwhelmingly positive feedback from the students, who found the sessions informative and inspiring. The speakers' expertise and practical insights left a lasting impression on the participants, motivating them to explore new avenues in their academic and professional journeys.

The event concluded with a vote of thanks to the speakers, organizers, and participants for making the program a resounding success. The "Introduction to Innovation" program not only educated students but also ignited a spark of curiosity and ambition, paving the way for future innovators and leaders in the fields of Civil, Computer, and Mechanical Engineering.

**NOTICE**

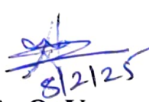

All the students of Electronics and Telecommunication Engineering department are hereby informed that Institute Innovation Council (IIC) of our institute is organizing '*Introduction to Innovation*', an awareness program specifically crafted for the students, to provide the basic knowledge about the innovation and thereby to motivate the students to broaden their spectrum of scientific research under engineering. The details of the program are as follows:

Day & Date : **Monday, 10<sup>th</sup> February 2025**

Time : **11:00 am onwards**

Venue : **Seminar Hall**

  
**Prof. N. N. Morey**  
Incubation Coordinator

## **INSTITUTE INNOVATION COUNCIL (IIC)** **(FC-33)**

Report on the Awareness Program: “Introduction to Innovation”

Date: Monday, 10<sup>th</sup> February 2025

Venue: Seminar Hall

Organized for: Students of Electronics and Telecommunications Engineering

### **Introduction**

On Monday, 10<sup>th</sup> February 2025, an awareness program titled “Introduction to Innovation” was successfully conducted for the students of Electronics and Telecommunications Engineering. The program aimed to provide students with insights into innovation, patents, internships, copyrights and startups, equipping them with the knowledge and inspiration to excel in their academic and professional careers.

### **Program Overview**

The program was structured into several sessions, each focusing on a specific aspect of innovation and career development. Mr. N. N. Morey, the program coordinator, played a pivotal role in introducing the event and summarizing the key takeaways at the end.

### **Session Details**

Mr. N. N. Morey commenced the program by welcoming the students and introducing the theme of the event, “Introduction to Innovation.” He emphasized the importance of innovation in the field of Electronics and Telecommunications Engineering and highlighted how the program would help students explore new opportunities and ideas.

Dr. A. B. More delivered an engaging session on the concept of innovation. He explained how innovation drives technological advancements and shared real-world examples of groundbreaking innovations in the field of electronics and telecommunications. He also

discussed the mindset required to foster creativity and problem-solving skills, encouraging students to think outside the box.

Dr. M. R. Dharme provided a comprehensive overview of patents and their significance in protecting intellectual property. He explained the process of filing a patent, the criteria for patentability, and the benefits of securing patents for innovative ideas. Dr. M. R. Dharme also shared success stories of individuals and organizations that had leveraged patents to achieve commercial success.

Ms. A. S. Choudhary and Ms. P. R. Wankhade spoke about the importance of internships in shaping a student's career. They highlighted how internships provide practical exposure, enhance technical skills, and help students build professional networks. They also shared tips on how to secure meaningful internships and make the most of the experience.

Mr. G. S. Shendre inspired the students with his session on startups. He discussed the journey of entrepreneurship, from ideation to execution, and shared his own experiences in building a successful startup. He emphasized the importance of resilience, adaptability, and teamwork in overcoming the challenges of starting a new venture.

Mr. N. N. Morey concluded the program by summarizing the key points discussed by each speaker. He reiterated the importance of innovation, patents, internships, and startups in shaping a successful career in Electronics and Telecommunications Engineering. He also encouraged students to take proactive steps toward achieving their goals and thanked the speakers for their valuable contributions.

### **Key Takeaways**

- Innovation is the cornerstone of technological progress and requires a creative and problem-solving mindset.
- Patents are essential for protecting intellectual property and fostering a culture of innovation.
- Internships provide practical experience and are a stepping stone to a successful career.
- Startups offer exciting opportunities for entrepreneurship but require dedication, resilience, and teamwork.

### **Feedback and Conclusion**

The program received overwhelmingly positive feedback from the students, who found the sessions informative and inspiring. The speakers' expertise and practical insights left a lasting impression on the participants, motivating them to explore new avenues in their academic and professional journeys.

The event concluded with a vote of thanks to the speakers, organizers, and participants for making the program a success. The "Introduction to Innovation" program not only educated students but also ignited a spark of curiosity and ambition, paving the way for future innovators and leaders in the field of Electronics and Telecommunications Engineering.
